

# HEINOLA

## HEINOLA SAWMILL SOLUTIONS

*The forest industry's changing market situation requires an increasingly planned and anticipatory approach. There is no room for unplanned service stoppages in the modern sawmill industry. HEINOLA SAWMILL CARE is a reliable partner as you work to keep production quality at its best and your customers satisfied.*

# HEINOLA SAWMILL CARE | AUTOMATION

## Anticipate. Plan. Save.

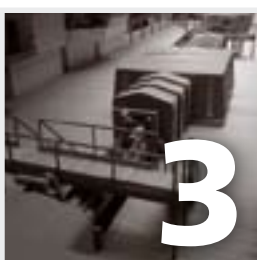

Maintenance of machinery and devices is an important factor in ensuring competitiveness in the industry. This has increased the importance of expert maintenance service providers. A service contract with HEINOLA SAWMILL CARE ensures that your machinery works at its maximum potential through its entire life cycle. There are numerous good reasons for choosing HEINOLA SAWMILL CARE automation maintenance services for your company's sawmills. The following list details the seven most important of these reasons:

HEINOLA masters the entire sawmill industry process from planning and production to servicing.

Our automatic service for anticipatory automation maintenance helps minimise stoppages.

Inspected and regularly serviced gauges ensure that your yield remains high at all times.

Regular inspections and maintenance reduce risks.

Our maintenance reports will keep you up-to-date on all the procedures that have been carried out and those procedures that are still required.

Our remote support service is able to solve the majority of problems that arise.

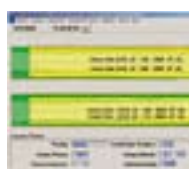

Regular maintenance of machinery improves workers safety.
